

## Sovereign® LED Picture Light

A high quality wall mounted picture light manufactured from ultra slim anodised aluminium tubular extrusion with semi-transparent polycarbonate lens and moulded end caps to form an enclosed unit incorporating the latest Sovereign® high efficiency SMD LED strip. Supplied complete with extruded aluminium wall bracket with concealed cable channel and leads for connection to remote 12V DC driver (order separately). Supplied as standard fitted with high power 14.4W/mtr LED strip with other outputs available. Standard lengths as shown below, but any length can be supplied (max 2mts per section). Anodised silver finish.
