

**ADJUSTABLE COOL HID BURIED (DRIVE OVER)**

Adjustable metal halide buried uplighter designed for use in any installation where surface temperature may be an issue. The main lamp head is located under a separate heat reduction chamber to reduce glass temperature to a minimum (only 50°C with 70W CDM-T). Solid stainless steel front bezel with toughened safety glass to provide load resistance up to 3000kg. Supplied with integral control gear and separate installation tube for ease of installation. May be specified with colour filter if required.

**NARROW BEAM**

| CAT No.    | LAMP  | W   |
|------------|-------|-----|
| 50233.S100 | CDM-T | 35W |
| 50234.S100 | CDM-T | 70W |
